

PRIMARY METALS

Refined Ecosystem for the Metal Industry

Nucor Steel and likeminded businesses tap into the Cleco service territory's interstate availability, deep-water ports and key talent for smelting and refinement of nonferrous metals. Companies' success is further bolstered by Louisiana FastStart, the customized training program offering that ranks as the best in the nation.

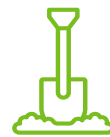

A PRIME LOCATION FOR METAL BUSINESS

39,681 regional primary metal manufacturing jobs
JobsEQ

Nation's **top workforce training program**
